Dear Mr. Clemons,

I am writing to express my apology for the two news stories Fox 5 recently broadcast regarding employee complaints about the administration of Workman's Compensation claims in Montgomery County. Despite having good intentions, it is apparent that our reporter did not take all expected measures to confirm the accuracy of all of the information she was provided. This shortcoming resulted in the news stories improperly attributing conduct of the prior Workman's Compensation administrator to CorVel. We truly regret this error. We strive for total accuracy and are disappointed that we fell short here.

Because of the factual errors, both stories were removed from the Fox 5 website and will not be reposted by the station. Thank you for your cooperation and understanding about this matter.

Regards,

Paul C. McGonagle
