

Care^{mc} System Requirements

System requirements for the Care^{mc} Web site, www.caremc.com.

Minimum System Requirements	
Browser	Microsoft Internet Explorer (IE) 7 or 8
Software	<p>Email – address must be associated with your Care^{mc} account and from a company rather than personal or social domain. (Ex. Joe_Smith@ABCbiz.net not Joe_Smith@hotmail.com)</p> <p>Microsoft Office 2007 or 2010 – View Word or Excel documents</p> <p>Microsoft .NET 4.0 (included in IE 7 and higher) – Upload documents securely into Care^{mc}</p> <p>Adobe Acrobat Reader, Version 10 – View reports</p> <p>Adobe Flash Player - View training videos</p>
Recommended Software	Microsoft Silverlight 4 or above – View documents
Site Access	Add *.caremc.com to your trusted sites. Depending on your security settings, this may need to be done by a company administrator. Browser settings (Internet Options) for Security Zone should be enabled to allow for the controls and pop-ups developed into Care ^{mc} to function. (Ex. ActiveX, JavaScript, file downloads, etc...)
