Claims Management - Liability/Property Incidents	11

Introduction

You can submit liability and property incidents, such as auto liability, general liability, product liability, and property damage (APL) and other coverage lines, in Care^{mc}.

Report Liability or Property Incident

To begin click **Intake > Report Liability/Property**.

Complete all sections of the intake form. Required information is designated with an asterisk (*).

The different sections of the form are outlined at the top of the screen.

- As you complete each step in the process, the step changes from grey to blue.
- The current step is highlighted with a white arrow.
- You can click any previous step to return and make changes to any step except Location and Type of Loss. If you need to change the Location or Type of Loss, you must cancel and begin again.

Customer and Location

Select the customer (your company) and click Next.

Select the location where the incident occurred and click Next.

- 10 locations are displayed at a time.
- Click the page numbers at the bottom of the table to see different locations.
- Click the column headings to re-sort the table by Address, City, State, or Zip.

Customer*

A maximum of 200 locations is shown. Use the filters to narrow your search. Click a row to select a location and then press Next.

0009		Lexington	Kentucky	40511
0011		Bay City	Michigan	48708

1 - 10 of 200 items

Note

Click Cancel to cancel the entire incident report (not just the current step).

Up to 200 locations are returned at a time. If you need to narrow the list, type the location name, address, city, state or zip code and click Search.

Then select the location where the incident occurred and click Next.

You can save a Liability/Property Intake form as a draft to complete later. You cannot save until you select a location.

Type of Loss

Select the Type of Loss (Automotive Liability, General Liability, Product Liability, Property Damage, or other loss types depending on client setup) and click Next.

Claim Information

Enter information about the incident, such as the exact location where the incident occurred and a detailed description and click Next.

- Accident Date may be typed with numbers only, no dashes or slashes.
- Claim Notes are visible in the Liability/Property Incidents screen available to Claim Supervisors. They are also visible wherever Notes appear in Care^{mc} after replication from the claim system.
- Investigation – enter information about police involvement or other investigating agency.
